### Data Sources
1. Independent restaurant surveys administered by Keybridge.
2. McDonald’s-reported video and images of television and digital ads designed for children.
3. Independent website audit conducted by Keybridge on a quarterly basis.
4. Ad placement data collected from OMD, a leading global media communications agency.
5. McDonald’s-reported creative files of Happy Meal boxes.

### Measurement Notes
A. Restaurants that do not have a Happy Meal menu board or do not feature any beverages on the Happy Meal menu board fulfill the commitment.
B. This metric excludes Family Meal menu boards.
C. Restaurants that do not feature any beverages on the toy merchandiser and/or posters directed to children fulfill the commitment.
D. Includes ads with an audience composition of over 35% children under age 12 (30% in the U.S. and 20% in the UK), between 6 a.m. and 9 p.m., with over 1 GRP.
E. Markets need to implement one action to fulfill Commitment 3. Some markets implemented more than one action, but only one action was verified independently.
F. At some restaurants, the qualifying items were not available for purchase. Surveyors who did not purchase an item were asked to confirm with a comment that the item was not available. Restaurants were only counted as not having an item if surveyors left a comment indicating that the item was not available. Otherwise, responses were counted as errors.
G. Generic boxes and bags are used when supplies of promotional boxes or bags have been exhausted.
